Re: OID Registration for Jamaica Public Key Infrastructure

The signatories will endeavour to regularly check that the Registration Authority abides by the requirements of Recommendation ITU-T X.660 | ISO/IEC 9834-1, and in particular that, if fees are charged, this is done on a cost-recovery basis.

It is agreed that this information will be recorded by ITU-T and ISO/IEC, and can be made publicly available, for example, in the OID repository.

It is further agreed that if this information is changed, ITU-T SG17 and ISO/IEC JTC 1/SC 6 will be informed.
